KODS BECHRI

Data Science Student — Machine Learning & Data Engineering

kods.bechri@fsm.rnu.tn | +216 97 393 006 | Tunis, Tunisia - Open to relocate | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Master's student in Data Science with a Bachelor's in Computer Science specializing in Software Engineering and Information Systems. Experienced in Python, databases, ETL pipelines, and machine learning, with a recent internship designing a real-time fraud detection system for a mobile wallet application. Interested in research on heterogeneous data integration, schema matching, semantic modelling, and similarity-based retrieval.

TECHNICAL SKILLS

Machine Learning & Data Science: Python, SQL, scikit-learn, XGBoost, PyTorch, R, anomaly detection, risk scoring
Data Engineering & Databases: SQL, PostgreSQL, MongoDB, MariaDB, Redis, ETL pipelines (Apache Hop)
Algorithms & Computing: Algorithm design, data processing, similarity-based analysis, CUDA, OpenMP
Backend & Software Engineering: FastAPI, NestJS, REST APIs, Git, Clean Architecture, unit testing, CI/CD, Agile/Scrum
Languages: French (Advanced), English (Advanced), German (Basic User), Italian (Beginner)

PROFESSIONAL EXPERIENCE

Data Science Intern *2026*
Symatique — Tunisia
- Designed and developed aa modular fraud detection system for a mobile wallet applicationcombining real-time rule-based checks and machine-learning risk scoring.
- Built a Redis-backed rule engine (velocity checks, suspicious ratios, structuring detection) with a 3-level decision output: accept / review / block.
- Trained and compared ML models (Isolation Forest, XGBoost) for fraud risk scoring, aligned with Tunisian regulatory requirements (BCT / TUNPAY) and CTAF AML logic.

Fullstack Developer *2025*
Zetabox Software Engineering — Tunisia
- Developed a cross-platform team management application using Flutter and integrated REST APIs built with NestJS and FastAPI.
- Worked with PostgreSQL and Prisma for database integration and data management.
- Contributed to authentication, facial-recognition attendance, leave management, and real-time notifications.
- Collaborated in an Agile Scrum environment with regular sprint reviews.

Flutter Developer *2024*
Wapply — France
- Optimized the existing codebase and developed new features, including an admin dashboard.
- Conducted functional testing that reduced post-release bugs by 30%.
- Worked within a Scrum framework with regular progress documentation.

IT Infrastructure Intern *2024*
Figeac Aero — Tunisia
- Explored the company's IT infrastructure, including network and server architecture.
- Assisted with intranet domain management and technical documentation.

PROJECTS

3D Parallel Reconstruction — Neural Radiance Fields
Python · PyTorch · CUDA · OpenMP
- Built a system that reconstructs a 3D object from a set of photos and renders it from any new viewpoint using Neural Radiance Fields (NeRF).
- Used Python and PyTorch for model implementation and experimentation.
- Investigated parallel computing techniques using CUDA and OpenMP.

Data Migration Pipelines with Apache Hop
Apache Hop · MongoDB · PostgreSQL · MariaDB

- Designed ETL workflows to migrate data between MongoDB, PostgreSQL, and MariaDB.
- Worked with heterogeneous database systems and data transformation workflows.
- Focused on data extraction, transformation, and loading across different database technologies.

Parapharmacie Smart Shop — Mid-Term Project
Python (BeautifulSoup) · Scikit-learn · Flutter · Dart

- Built an intelligent mobile app for parapharmacy product recommendations.
- Collected data using Python (web scraping with Beautiful Soup).
- Trained a recommendation model and integrated it into a Flutter app with a chatbot interface.

EDUCATION

Master's Degree in Data Science *2027*
Faculty of Science of Monastir, Tunisia

Bachelor's Degree in Computer Science (Software Engineering) *2025*
Faculty of Science of Monastir, Tunisia

CERTIFICATIONS

- AWS Academy Graduate — Data Engineering
- AWS Academy Graduate — Cloud Foundations
- Foundations of Cybersecurity — Google (Coursera)

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Member — Club Robotique IngEnim *National School of Engineers of Monastir, 2024*
Organizer — FSM Robots 2.0 *Faculty of Science of Monastir, 2023*
Member — FSM Robotech *Faculty of Science of Monastir, 2023*
